

# Big Backyard Ideas for a Smaller Space

**Big or small, Grigg Design does it all!**

Even though single family homes make up the majority in Northern Virginia over 25% of all dwellings are Townhouses.

## A Vertical Garden 'Living Wall'

Adds a new dynamic to a smaller backyard. Vertical landscaping is a great alternative to just putting up lattice as a screen with a lot more variety.

Most plants and vegetables can be used in a vertical garden, but some are better than others.

The worlds tallest living wall 'The Currents' located in the Desjardins Building in Quebec rises over 213 feet in the air

Just because your canvas is smaller doesn't mean you can't be as creative

\* Landscaping can increase the value of your home by 5-10%

## Pick a Focal Point

When planning your backyard, think about what will be the main function of the space...

Over 80% of all U.S. households own a grill or smoker

The reflective property of water can make some smaller spaces look bigger

**No matter what size backyard you have, the possibilities are endless!**

Call Grigg Design to schedule a consultation, and let's get to work creating the best northern Virginia hardscape design for your yard. (703) 368-7539
